A

CATALOGUE

OF

RECENT SHELLS

WITH

DESCRIPTIONS OF NEW OR RARE SPECIES

IN THE

S.BASS.

COLLECTION

OF

JOHN C. JAY, M. D.

Member of the Lyceum of Natural History, New-York; Corresponding Member of the Academy of Natural Sciences, Philadelphia; of the United States Naval Lyceum, Brooklyn,
&c, &c. &c.

Illustrated by Four Plates.

SECOND EDITION.

NEW-YORK.

1836.

Division of Mollusks
Sectional Library

Printed by D. Fanshaw, 150 Nassau-street.

Since this Catalogue was first published, considerable additions have been made to the Collection. This circumstance, together with the imperfections of the first edition, have induced me to publish the present.

In this I have added the *authorities* for the names of the species, and in a few instances their *synonymes*. In these additions it is probable that there are errors, which I shall take it as a favor to have pointed out.

For the benefit of young Collectors, I have annexed the classification of Lamarck, including some of the *fossil genera*. I have also inserted Plates and Descriptions of a few exotic shells in my possession, most of which are, I believe, hitherto undescribed; and concerning which I shall be happy to receive information.

It will give me pleasure to exchange duplicate specimens, and I will receive *live and perfect* shells, whether they are enumerated in this Catalogue or not, and, as far as I am able, supply whatever may be desired in return.

New-York. November 1, 1836. **J. C. JAY, 22 Bond-street.**

Kollusks Natural History

CATALOGUE OF SHELLS

IN THE CABINET OF

JOHN CLARKSON JAY, M. D.

ANNULATA

Forms the Ninth Class of Lamarck's Division of Animal Nature.

ANNULATA SEDENTARIA.

DORSALIA.

	ARENICOLA			
129	SILIQUARIA	anguina,	Lam.,	New Holland.

MALDANIA.

	CLYMENE			
136	DENTALIUM	elephantinum,	Linn.,	East Indies.
138	"	politum,	"	"
142	"	entalis,	"	Europe.

AMPHITRITEA.

147	PECTINARIA	Belgica,	Lam.,	Rhode Island.
151	SABELLARIA	crassissima,	Lam.,	Europe.
153	TEREBELLA	conchilega,	Lam.,	Europe.
157	AMPHITRITE	penicillus,	Lam.,	Havre.

SERPULEA.

163	SPIRORBIS	spirillum,	Lam.,	Torbay, G. B.
171	SERPULA	contortuplicata,	Linn.,	
187	"	dentifera,	Lam.,	
174	"	decussata,	Gmel.,	
176	"	infundibulum,	"	

180 a.	(Serpula)	lobata,	Mont.,	G. Britain.
190	"	tubularia,	"	"
180	"	vermicella,	Lam.,	
168	"	vermicularis,	Linn.,	
192	Vermilia	triquetra,	Lam.,	
200 a.	Galeolaria	recumbens,	Lam.,	
202	Magilus	antiquus,	Lam.,	Isle of France.

Tenth Class.

CIRRHIPEDA.

CIRRHIPEDA SESSILIA.

85	Tubicinella	balænarum,	Lam.,	Head of whale.
88	Coronula	balænaris,	Lam.,	Back of whale.
87	"	diadema,	"	" sea turtle.
89	"	testudinaria,	"	" "
89 a.	"	" var.	"	South Sea.
90	"	radiata,		California.
73	Balanus	angustatus,	Mont.,	Great Britain.
72	"	conoides,	Lam.,	"
47	"	cylindraceus,	"	Europ. Ocean.
46	"	nigrescens,	"	East Indies.
50	"	ovularis,	"	Great Britain.
56	"	radiatus,	Brug.,	
58	"	stalactiferus,	"	Red Sea.
44	"	sulcatus,	"	Great Britain.
45	"	tintinnabulum,	"	East Indies.
91	Acasta	Montagui,	Lam.,	Great Britain.
97	Creusia	verruca,	Lam.,	Great Britain.
99	Pyrgoma	cancellata,	Lam.,	Pacific.
81	Conopæa	elongata,	Say,	S. Carolina.

CIRRHIPEDA PEDUNCULATA.

105	Anatifa	dorsalis,	Linn.,	Limestonerocks, [Barbadoes.
100	"	lævis,	Lam.,	South Atlantic.
103	"	striata,	"	G. Britain.
104	"	vitrea,	"	North Atlantic.
106	Pollicipes	cornucopia,	Lam.,	Cape de Verds.
107	"	mitella,	"	East Indies.
111	Cineras	membranacea,		G. Britain.
110	"	vittata,	Lam.,	Ships' bottoms.
112	Otion	Cuvieri,	Lam.,	South America.

Eleventh Class.

CONCHIFERA.

ORDER I.—CONCHIFERA BIMUSCULOSA.

SECTION I.—CONCHIFERA CRASSIPEDA.

TUBICOLARIA.

118	Aspergillum	agglutinans,	Lam.,	East Indies.
115	"	Javanum,	"	"
114	Clavagella	?,		(*Fossil.*)
122	Fistulana	gregata,	Lam.,	
	Septaria			
	Teredina			
126	Teredo	navalis,	Linn.,	Ships' bottoms.

PHOLADARIA.

207	Pholas	candida,	Linn.,	EuropeanOcean.
213	"	clavata,	Lam.,	East Indies.
210	"	costata,	Linn.,	Gulf of Mexico.
210 a.	"	"	"	South Carolina, (with the animal.)
211	"	crispata,	"	Sandy Hook, [N.Y.odd valves.
211 b.	"	"	"	Sandwich, G. B.
205	"	dactylus,	"	Mediterranean.
205 a.	"	"	"	Torbay, G. B.
208	"	dactyloides,	Lam.,	G. Britain.
209 a.	"	papyracea,	Brown,	Devon. G. B.
206 a.	"	truncata,	Say,	Connecticut.
215	Gastrochæna	cuneiformis,	Lam.,	St. Croix.
217	"	modiolina,	"	G. Britain.
216 a.	"	ovata,	Sowb.,	Isle of Perico.
215 a.	"	truncata,	"	"

SOLENACEA.

233	Solen	antiquatus,	Lam.,	Devon. G. B.
232	"	caribæus,	"	Long Island.
234	"	constrictus,	"	Rhode Island.
220 a.	"	costatus,	Say,	"
226	"	cultellus,	Linn.,	East Indies.
230	"	Dombeii,	Lam.,	Pacific.
223	"	ensis,	Linn.,	Rhode Is.&G.B.
231	"	Javanicus,	Lam.,	East Indies.
229	"	legumen,	Linn.,	G. Britain.
228	"	minutus,	"	"
225 a.	"	pellucidus,	Turton,	Devon. G. B.
224	"	pygmæus,	Lam.,	Torbay, "
235	"	radiatus,	Linn.,	Sumatra.
237	"	rostratus,	Lam.,	Maine.
222	"	siliqua,	Linn.,	N. Y. & G. B.
222 a.	"	strigilatus,	"	East Indies.
223 a.	"	truncatus,	"	Europe.

219	(Solen)	vagina,	Linn.,	Sandwich, G. B.
236	"	violaceus,	Lam.,	East Indies.
238	"	viridis,	Say,	Rhode Island.
233 o.	Solenella	Norrisii,	Sowb.,	Valparaiso.
	Panopæa			
242	Glycymeris	siliqua,	Lam.,	North Seas.
		Mya siliqua,	Chemn.,	

MYARIA.

246	Mya	arenaria,	Linn.,	Europe.
249	"	hyalina,	Conrad,	Long Island.
250	"	mercenaria,	Say,	New-York.
250 a.	"	Norwegica,	Gmel.,	G. Britain.
245	"	truncata,	Linn.,	"
252 a.	Anatina	convexa,	Turt.,	Devon. Eng.
262	"	Leana,	Conrad,	Plymouth, Mass.
255	"	longirostris,	Lam.,	East Indies.
260	"	myalis,	"	British Isles.
260 a.	"	papyratia,	Say,	Rhode Island.
254	"	subrostrata,	Lam.,	East Indies.
257	"	trapezoides,	"	Brazil.
253	"	truncata,	"	East Indies.
203	Lyonsia	cuneata,	Turton,	Arica.
245 a.	Thracia	corbuloides,	Deshayes,	Mediterranean.
249 a.	"	?,		Rhode Island. (odd valves)

SECTION II.—CONCHIFERA TENUIPEDA.

MACTRACEA.

263 a.	Lutraria	canaliculata,	Say,	S. Carolina.
274	"	campechensis,		Campeachy.
273	"	complanata,	Lam.,	England.

266	(Lutraria)	compressa,	Lam.,	Sandwich, Eng.
264	"	elliptica,	"	Devonshire, "
264 a.	"	lineata,	Say,	S. Carolina.
263	"	solenoides,	Lam.,	Cornwall, G. B.
296	Mactra	alba,	Lam.,	Sandwich, G. B.
308	"	arctata,	Conrad,	Newburyp'tMass.
284	"	australis,	Lam.,	New Holland.
278	"	carinata,	"	East Indies.
307	"	crassatella,	"	Sandwich, G. B.
313	"	crassa,	Turton,	Devon. "
275	"	gigantea,	Lam.,	Long Island.
280	"	grandis,	Chemn.,	Prout's Neck,Me.
279	"	helvacea,	"	Adriatic Sea.
293	"	lactea,	Poli,	Mediterranean.
311	"	lateralis,	Say,	Rhode Island.
299	"	rufa,	Lam.,	East Indies.
309	"	similis,	Say,	S. Carolina.
297	"	solida,	Linn.,	England.
276	"	Spengleri,	"	Cape of G. Hope.
281	"	stultorum,	"	Sandwich, G. B.
287	"	turgida,	Gmel.,	East Indies.
285	"	violacea,	Chemn.,	Tranquebar.
319	Crassatella	glabrata,	Lam.,	Sumatra.
328	Erycina	donacina,		Arica.
327 a.	Gnathodon	truncatus,		Florida.
	Ungulina			
335	Solemya	borealis,	Totten,	Rhode Island.
334	"	velum,	Say,	Long Island.
333	"	Mediterranea,	Lam.,	Mediterranean.
337	Amphidesma	donacilla,	Lam.,	Mediterranean.
353	"	solida,	Gray,	Arica.
355	"	pulchrum,	Sowb.,	Bay of Caraccas.
338 a.	"	formosum,	"	
352	"	transversum,	Say,	Long Island.

CORBULEA.

364	CORBULA	porcina,	Lam.,	Buenos Ayres.
360 a.	"	contracta,	Say,	Rhode Island.
362	"	nucleus,	Lam.,	Devon. G. B.
368	PANDORA	obtusa,	Lam.,	G. Britain.
367	"	rostrata,	"	Mediterranean.
369	"	trilineata,	Say,	Long Island.

LITHOPHAGA.

375	SAXICAVA	distorta,	Say,	Mass.
372	"	pholadis,	Lam.,	North Sea.

CORRIGENDA.

Page 72.—For *Polytholamous*, read *Polythalamous*. For *Nosodaria*, read *Nodosaria*.

Page 74.—After *Pealii* add *Le Sueur*.

EXPLANATION OF PLATE I.

Figure 1. PUPA ringens, Nobis.

P. testâ cylindraceâ, attenuato-subacutâ, subfuscâ, subumbilicatâ; rugis albis longitudinalibus obsoletis crebris; suturis crenatis; aperturâ quinquedentatâ; labro margine albo, reflexo.

HAB. Brazil.

This shell has one single and one double tooth on the inner lip, and two single and one triple tooth on the outer, and has a blackish stripe from the umbilicus round under the reflection of the lips to the suture of the body whorl.

Figure 4.4. PUPA egregia, Nobis.

P. testâ ovato-turgidâ, reticulatâ obsoletâ, roseâ, ventricosâ; plicis obliquis undatis; anfractibus convexis, aperturâ albâ; columellâ subtortuosâ; labro repando.

HAB. Brazil.

This is also a land shell, and very light for its size; the margin is elevated round the whole aperture except at the superior extremity. It has a line of orange surrounding the entire margin, and the plaits on the convexity of the whorls resemble those of the Buccinum undatum.

Figure 2. MEGASPIRA Ruschenbergiana, Lea.

This is a new and interesting land shell from Brazil, for which Mr. Lea considers it necessary to form a new genus. His description of it will appear in the Transactions of the American Philosophical Society of Philadelphia.

Figure 3.3. BULIMUS melanostomus, ?
" *Dufresnii*, Wood's supplement.

This beautiful shell was placed in my collection by James Chilton, M. D., (to whom I am indebted for several other land shells,) and is said to come from Brazil. Since this Plate was made, my friend William Cooper, Esq. has received two specimens of this same shell from a foreign correspondent, labelled B. melanostomus.

EXPLANATION OF PLATE II.

Figure 5. CERITHIUM magnum, Nobis.

C. testâ turritâ, maximâ, ponderosâ, cinereo-fuscescente; anfractibus infra suturas bicinctis et tuberculis coronatis; columellâ sub-biplicatâ; aperturâ albâ.

HAB. ?

This is the largest recent Cerithium that I have seen; it measures nearly five inches, and is marked with longitudinal irregular brownish lines or spots.

Figure 6.6. RANELLA ?

HAB. ?

I have been informed that this curious shell has been already described; if so, it will be a pleasure to learn by whom, from some of my friends.

EXPLANATION OF PLATE III.

Figure 7. AMPULLARIA angulata, Nobis.

A. testâ suborbiculatâ, perforatâ, supernè planulatâ, hepaticâ; spirâ elevatâ; anfractibus ad suturas latis angulatis.

HAB. Mexico.

This curious river shell will easily be distinguished by the angularity of the superior parts of the whorls.

Figure 8. AMPULLARIA ochracea, Nobis.

A. testâ ventricoso-globosâ, tenui, lævi, ochraceâ; anfractibus convexis et ad suturas albo-cærulescentibus.

HAB. Spanish Maine.

Figure 9.9. HELIX speciosa, Nobis.

H. testâ subglobosâ, imperforatâ, spadiceâ; anfractibus fasciis albis transversis.

HAB. ?

EXPLANATION OF PLATE IV.

Figure 10.10. NATICA imperforata, Nobis.

N. testâ ventricoso-ellipticâ, solidâ, imperforatâ, ruſo-zonatâ, longitudinaliter lineatâ; lineis crebris, luteis undulatis; callo prominenti; labro acuto.

HAB. ?

I have several specimens of this beautiful shell, varying in size from one-half to three inches, and they have not the slightest trace of an umbilicus. It does not therefore properly belong to the genus Natica. The callosity is colored beautifully black on the upper part, and the inferior two-thirds white.

Figure 11.11. NERITINA papillosa, Nobis.

N. testâ ovatâ, tenui, atrâ; papillis atris; aperturâ albo-cærulescente; labro tenui, supernè biauriculato.

HAB. ?
